

10,000th Mercedes Bluetec Truck Rolls Off Assembly Line

{mosgoogle right} In commercial truck news, it's been just under a year since DaimlerChrysler began producing their award-winning BlueTec commercial vehicles at their plant in WÃ¼rth. Despite its relatively short lifespan, today marked a significant milestone for the BlueTec commercial division, with the 10,000th BlueTec equipped vehicle rolling off the assembly line. The unit was a Mercedes-Benz Actros BlueTec 5 model, and it was handed over to the management of freight company GRT Wittwer Transport GmbH by Hubertus Troska, Head of the Mercedes-Benz Trucks Business Unit.
