

Mercedes Provides The German National Football Team With New Travego Touring Bus

In football-related news (or soccer for my American readers), Mercedes has announced today that they have provided the German Football Association (DFB) with a new team bus to transport the German national team. Mercedes, who is a general sponsor of the DFB, handed over the keys to a new Mercedes-Benz Travego before a friendly match that took place between the German national team and FSV 63 Luckenwalde. In addition to a 428 hp power plant, the Travego features a number of technical innovations, including Electronic Stability Control, an anti-lock braking system, acceleration skid control, Brake Assist, and a reversing aid with a reversing camera, as well as a custom interior designed specifically to meet the needs of the German national team.
